

↑ Fairfield Tub and Shower Mixer

Inspired by the Arts and Crafts and Aesthetic movements, this tub and shower mixer from Samuel Heath's Fairfield collection can convert a simple bathtub into a multipurpose shower or bath. The fixture can be deck-mounted or floor-mounted when used with standpipes. Available finishes include Antique Gold, Chrome, Polished Nickel, City Bronze, Country Bronze, and Satin Nickel.

→ Beachstone Sustainable Surfaces

Made from 85 percent recycled glass and concrete, Beachstone Sustainable Surfaces offer environmentally friendly countertops. Beachstone surfaces can be standard sized or custom made to order, without the long lead times typically required with other concrete cast products. Product color lines include Pearl and Maine series, with nine colors in each product line.

← LUXE Pattern Grate Linear Shower Drain

The linear patterns on these new shower drains from LUXE Linear Drains helps create curbless or barrier-free entry showers with a contemporary feel. The classic square-hole pattern grid is offered across six standard lengths—26, 30, 36, 40, 48, and 60 inches—and two finish styles. Custom sizes, patterns, and finishes are available upon request. Installation is fast and easy due to the welded 2-inch central diameter outlet that replaces the strainer and flange.

← Moen Banbury Bath Suite

Moen has added an 18-inch safety grab bar to its existing Banbury bath suite, featuring rubber grip pads for a better grasp in the tub or shower. The high-quality, corrosion-resistant material can withstand weights up to 500 pounds when mounted with a stud. Also added are a glass shelf and pivoting mirror in Chrome, Brushed Nickel, and Mediterranean Bronze finishes.

↑ Clark Architectural Solid Surfaces

Clark Architectural's Solid Surfaces division offers high-quality bathtubs, sinks, and custom shower bases that emphasize both form and function. All pieces are composed of Lucite, a liquid acrylic resin unique to Clark Architectural, and aluminum trihydrate for a distinctive finish. A variety of shapes and sizes are available; all products can feature a matte or polished finish.
